- Single bowl Belfast sink with Franke tap
- Microwave, fridge freezer and dishwasher, all Neff

NEW DIMENSION

Photography by rfcreative.

The home: A classic style family home in Navan.
 Who lives here? Sylvia, David and family.

This is the second kitchen from Mooney's that Sylvia and David have invested in. 'Our last kitchen was put in just five years ago so it's not that it needed replacing. We changed it simply because we decided to extend this room out to the side of the house.'

With such a spacious new kitchen, Sylvia's priority was to make the most of the new room with lots of storage, an island and casual seating area. Happy with the quality and service provided by Mooney's first time around, the couple were drawn back to choose their next new design. 'We did shop around but kept comparing other companies to them. They offer a fantastic personal service – from Michael designing the kitchen to Martin fitting it, the entire process was second to none.'

Having a clear idea of what they wanted, Sylvia and David worked with designer, Michael, who suggested lots of ideas, inspiring the couple to maximise every aspect of the room. 'Michael was fantastic; he thought of every practicality and steered us in the right direction. It was his idea to site the dishwasher at body level, saving the need

to stoop and he had the wine cooler discreetly fitted into the island so it wasn't obtrusive. The larder was also his idea; which I now wouldn't be without.'

A classic Shaker style, this design is timeless with all the luxuries this family could ever need. The island is Sylvia's favourite feature. With such a large room, a substantial island could easily be accommodated. The range cooker is fitted in the island – an unusual position for a range, this was David's request. 'My husband loves cooking so he wanted to be able to cook while chatting to the rest of us at the island.' Even though this is a spacious room, everything is surprisingly close to hand. Behind the range is the sink, raised dishwasher, fridge freezer, pantry and combi microwave, so all the essentials are within easy reach.

This extension has added a completely new dimension to the layout in this stunning family home. With a dining and living area leading off the kitchen, it's the new social hub of the house. **Phone Mooney's, Navan, Co Meath 041 6854290.**
